Oil of Switzerland

RACING LINE

FOR MORE POWER

MOTOLINE

RACING LINE

MOTOREX has been supplying high end, specially formulated lubricants for racing teams to the motorsports community for years now. Our market experience together with constant testing and refining of products has produced a line of uncompromised products which meet the highest demands that racers and racing enthusiasts require from their lubricants. The new RACING LINE now makes these products available for the racing community. MOTOREX has shaped the RACING LINE into a core group of products specific to every racers needs. The RACING LINE; including motor oils, gear oils, brake fluid and represents the highest racing performance lubricants that MOTOREX's Racing Lab produces and uses.

MOTOREX RACING LAB

The MOTOREX RACING LAB is responsible for supporting and developing the latest racing products that are demanded by racing teams around the world. The MOTOREX RACING LAB has been recognized as the most well established racing specialists among racing teams.

Together with the combination of a new line of high quality products, unmatched performance and our passion for lubricants we have created a whole new meaning for the term "high performance racing products".

RACING PRO 4T 0W/40

Fully synthetic high-performance engine oil for 4-stroke motorcycles • Special development for 4-cylinder motors; Superbike, Supersport • Reduces coefficient of friction • Enhances performance

RACING PRO 4T 15W/50

Fully synthetic high-performance engine oil for 4-stroke motorcycles • Special development for European 2 and 3-cylinder motors • Reduces coefficient of friction • Enhances performance

RACING PRO 4T 5W/30

Semi-synthetic extreme high-performance engine oil for Off-Road 4-stroke motorcycles • Provides ultimate clutch protection • Reduces coefficient of friction • Enhances performance

RACING GEAR OIL 10W/40

High-performance gear oil • Extremely good resistance to pressure • For separately lubricated gearboxes and clutches • Is highly efficient against clutch wear

RACING BRAKE FLUID

High-performance brake fluid • Extremely high dry and wet boiling points (563°F/383°F, 295°C/195°C) • Easily exceeds DOT 4 specifications
